Summary of Change (25 words or less)

1.Change the word 'immediate' to 'timely';
2.Add the word of ADS in front of user;
3.Change the word 'enable' to 'activate'

Reason for Change (Justification)

1.Immediate seems too urgent. In the actual activation process, there may be a gradual activation process, such as activation preparation or a gradual activation progress bar, which will only provide feedback on the final activation result after it is completely stable;

2.To be coordinate with terms of the rest of the file, such as item 3.14;

3. It will be more suitable to use the word of activate, and to be coordinate with the terms of the rest of the file, such as item 5.1.4.4.2 and 3.7.
