

Proposal for supplement 7 to the 01 series of amendments to UN Regulation No. 121 (Identification of controls, tell-tales and indicators)

Submitted by expert from the Netherlands *

The text reproduced below was prepared by the expert from the Netherlands to amend UN Regulation No. 121, in order to update the Regulation to take into account the updated version of ISO 2575. The modifications to the current text are marked in bold for new or strikethrough for deleted characters.

* In accordance with the programme of work of the Inland Transport Committee for 2025 as outlined in proposed programme budget for 2025 (A/79/6 (Sect. 20), table 20.6), the World Forum will develop, harmonize and update UN Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.

I. Proposal

Paragraphs 5.2.1. to 5.2.7., paragraphs 5.4.1.1. to 5.4.2. and table 1 - footnotes 2 and 18,
replace:

“ISO 2575:2004”

by:

“ISO 2575:**2021**”

II. Justification

1. The ISO standard has been updated to account for new features and accompanying symbols.
 2. The updated ISO standard is not considered to make it necessary to introduce a new series of amendments. It is considered appropriate to apply the new standard for newly added symbols in existing UN R121 approvals and for new approvals.
