

Proposal for a supplement to the original series of amendments to UN Regulation No. [175] (Acceleration Control for Pedal Error)

The text reproduced below is based on ECE/TRANS/WP.29/2024/154 and includes the amendments, marked in **red** below.

I. Proposal

Paragraph 5.1.4., amend to read:

5.1.4. The ACPE shall control acceleration when the vehicle is accelerated from standstill.

5.1.4.1 If ACPE is not ready to perform an intervention 6 s after the initiation of the vehicle powertrain, information of this status shall be indicated to the driver. This information shall exist until the system has been successfully initialised.

II. Justification

00 series text is not mentioned initialization, and this proposal aligns with the 01 series amendment.
