

Proposal for Supplement 2 to the 10 Series of Amendments to UN Regulation No. 107

The text reproduced below was submitted by the expert of OICA to amend UN Regulation No. 107. The amendment aims to add clarity to the requirements contained in annex 3, paragraph 7.19. The modifications to the current text of the UN Regulation are marked in bold for new or strikethrough for deleted characters.

I. Proposal

Annex 3, paragraph 7.19., amend to read:

"7.19. Safety Information.

In the case of vehicles of Classes II non low floor, III and B, means to transmit safety information, which permit the operator, driver and/or crew to easily inform the passengers of the safety instructions as e.g. the location of the emergency exits, the location of the fire extinguishers, safety sign, shall be specified by the manufacturer in the application for approval.

These means shall be adapted to the design and architecture of the vehicle with the aim of making the safety instructions easily accessible and intelligible ~~by~~ **from any passenger seat.**"

II. Justification

The purpose of this amendment is to clarify the obligations of the manufacturer in relation to the provision of information regarding the location and safe use of emergency exits and fire extinguishers.
